That's sounds good. I will arrange that everyone is there.

Pat

Pat: Looks like Tuesday, April 8 will work for lab training. We can start at 8am and it will run for most of the day. Of course if your guys need to take breaks to take care of work during the day that would be just fine. Please let me know if this works so we can make travel arrangements.

Thanks,
Dean

Lets hold April 8-9, they should work. Please let Phil know that Ken will be contacting him soon to help prepare the training session.

Thanks,
Dean

Yes, phil would be the guy but I want all three there for the class. Have you figured out which dates are best yet?

Pat: my lab expert, Ken Gunter, would like to talk to your lead staff person that handles lab work and sampling. Would that be Phil? This will help him plan for the upcoming training we discussed.

Ken is a great guy and an excellent trainer. He's very much looking forward to working with you and your staff on lab issues.

Thanks,
Dean

Ok, if you can give me some good dates in April I'll work with my lab expert to set up a one day training. Thanks.

Perhaps. I have had to go back to a routine schedule of switching off operator in charge/lab due to forgetfulness with sampling, etc.

They will have had lab class and days away from testing out by that time unless you want to schedule it before the middle of April.

Pat: Please find the attached Inspection Reports for the August 2013 inspections conducted at the Bad River WWTP and the Birch Hill Lagoon. Please let me know if you have any questions. If we did not accurately capture your statements or quotes please let me know and I can make changes. The final reports will be mailed to the permit addressee (the Chairman in this case).

Thanks,
Dean
